

ENERGY MANAGEMENT POLICY

In Akenerji, one of the private sector electricity generation companies aiming to be the leader in the energy generation sector in Turkey; in order to identify and manage our important energy consuming resources; we are committed to,

PROVIDING RESOURCES

To provide the necessary information, human, financial and other resources to achieve the determined energy goals and targets,

COMPLIANCE WITH LAWS AND OTHER TERMS

To comply with all applicable legal and other requirements regarding energy efficiency, energy use and energy consumption,

SUPPLY OF PRODUCTS AND SERVICES

To supply energy efficient products and services that affect energy performance,

DESIGN

To consider performance improvement opportunities and operational controls in case of designing energy-using processes in power generation plants that will be newly established, replaced or renewed,

AWARENESS

To carry out trainings in order to increase energy efficiency awareness,

CONTINUOUS IMPROVEMENT

Monitoring, implementing and continuously improving the energy performance and energy management system in an integrated manner with integrated management systems.
