

QUALITY POLICY

As one of the leading private power generation companies in Turkey, Akenerji and group companies provide with reliable, economic, environmentally friendly energy to national energy demand, while meeting increasing demands and expectations with high productivity, via its quality-focused approach.

We are committed to;

DIVERSITY OF ENERGY SOURCES

Becoming sustainable company in the competitive market by diversifying fuel sources in line with changing global and domestic conditions,

TECHNOLOGY CHOICE

Improving our generation efficiency and company performance in accordance with sectorial developments, by integrating the best applicable technology products into our processes,

LEGAL COMPLIANCE

Generating and supplying power in accordance with applicable laws by closely monitoring the changing conditions in the energy sector and our country,

EMPLOYEE VALUE

Considering each and every employee as the greatest “source of energy”, we are committed to encourage employees to become team members who are able to develop and refresh themselves in multiple aspects, Believing that this team approach will allow Akenerji to create a quality workforce that will attract top talent and set an example for the sector,

SUBCONTRACTORS AND SUPPLIERS

to support their continuous development, by working collaboratively with our suppliers according to selecting and evaluating criteria we specify

PROCESSES

Effectively managing risks to ensure continuity of business processes and continuous improvement in line with company objectives,

SUSTAINABLE DEVELOPMENT GOALS

To improve our processes in the direction of the United Nations Sustainable Development Goals,

OUR STAKEHOLDERS

Offering each of our stakeholders the privilege of working for a transparent and reliable company.
